DIZRA

Referentiearchitectuur voor een Duurzaam Informatiestelsel in de Zorg.

De principes verbeeld

Waarom een verbeelding?

IT-Architecten in de zorg zijn de ambassadeurs voor het communiceren van de DIZRA-principes. De verbeelding van de principes helpt jullie om het verhaal te vertellen:

- Welke principes zijn er?
- Waarom hebben we het principe?
- Wat zegt ieder principe?
- Wat is de samenhang?

Wie hebben er aan meegewerkt?

- Ben van der Stigchel (VZVZ)
- Steven van der Vegt (Nuts)
- Vincent van den Berg (ChipSoft)
- Jorrit Spee (CareCodex)
- René Hietkamp (Architectuurcommunity Zorg)

De tekeningen zijn gemaakt door Herman Weeda van Sketchy Business (https://www.sketchybusiness.nl)
